Province Lands Maintenance Projects Commence

Cape Cod National Seashore Acting Superintendent Mike Murray has announced that work has begun on two projects in the Province Lands area of the park. Trail rehabilitation on the boardwalk to the Old Harbor Life Saving Station at Race Point Beach is being done by National Park Service crew members, and rehabilitation and maintenance is being done on the Beech Forest Trail by volunteers from the Sierra Club and National Park Service staff. The Old Harbor Life Saving Station boardwalk project is being funded through the Fee Demonstration Program, by which a portion of park entrance fees are returned to the park for improvement projects.

The visitor experience should be more enjoyable and safer once these projects have been completed.
